DETAILED ACTION

Abstract

1. The corrected abstract was received on 3/23/2004. The examiner approves this abstract.

Claim Rejections - 35 USC § 112

2. In response to applicant's amendment of 3/23/2004, the examiner has removed all prior 35 USC., 112 rejections.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 16-17 are rejected under 35 U.S.C. 102 (b) as being anticipated by Stevens et al. (U.S. 5,797,960).

Steven⁵et al show in figs 2, 8a, abstract and col. 3, lines 14-55, a method for accessing an interior of a heart chamber having the limitations of claims 16-17, including: inserting a port (22) into a wall of the heart chamber while the heart remains beating. The port has a lumen there through for accessing the interior of the heart chamber.

Allowable Subject Matter

4. Claims 27-29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The following is a statement of reasons for the indication of allowable subject matter: The prior art fails to disclose a method step that is positioning staples

from the stapling device into a portion of a mitral valve annulus to reduce a length of the portion of the mitral valve annulus.

Response to Amendment

5. Applicant's remarks with respect to claims 16-17 have been considered but are moot in view of new ground(s) of rejection. Applicant is asked to please refer to the modified prior art rejection above wherein examiner addresses applicant's concerns regarding prior art rejection.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

U.S. Pat. No. 6,059,750 to Fogarty U.S. Pat. No. 5,972,030 to Garrison

U.S. Pat. No. 5,332,402 to Teitelbaum

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3731

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
